George,

Ref St Eustatius on ETA 14th now

--QU--

The vessel will have to get there VERY early am (01:00, 02:00) or they won't get all their fuel. My barges have to leave that day to go to St. Maarten and St. Kitts. And they'll need time to refuel before they go.

--UNQU--

Spoke with Aegean at Kingston, no LSFO / no LSDMA.

Kind Regards,

Zachary S Fisher

Hi Laura,

As below from Statia. They barges are big, would think they could pump 500 + mts an hour. At 250 an hour your at 3.46 hour + time for paperwork / gauging / switching hoses.
